As a mid-sized global biopharmaceutical company, Ipsen improves patients' lives through research, innovation and the development of transformative medicines in Oncology, Rare Disease and Neuroscience.

Improving people's lives and health outcomes by focusing on areas of high unmet medical need, we are accelerating our momentum and rapidly boosting our pipeline to bring the full potential of our innovative medicines to patients.

<https://www.ipsen.com/>

We put better health within reach, every day.

By creating high-quality medicines and making them accessible to the people who need them, we help to shape a healthier world that enriches all our communities.

Our partners collaborate with us because of our reputation for quality, our strong brand recognition, and our US FDA-inspected manufacturing plants. Organisations we work with know they can rely on us to deliver consistently, in all our markets.

We have always been committed to high standards of ethical conduct. In our business and in our dealings with other people. At the heart of this are our three values: Innovation. Caring. Collaboration. These shape the way our people think, work and behave. And ensure the sustainability of our company. In 2017, we achieved the highest ranking of any pharmaceutical company in the UK's Institute of Directors' Good Governance Report.

Among the most comprehensive and advanced health care systems in the world

Our goal is to provide the best patient experience with every patient, every encounter, every time.

UCLA Health is among the most comprehensive and advanced health care systems in the world. Our mission is to provide state-of-the-art patient care, generate research discoveries leading to new treatments and diagnoses, and train future generations of health care professionals. Together, the UCLA Hospital System and the David Geffen School of Medicine at UCLA strive every day to be a leader in setting the standards of excellence.

We offer an integrated network of primary and specialty care services at more than 280 clinics across Southern California and the Central Coast and at five medical centers and hospitals – Ronald Reagan UCLA Medical Center, UCLA Mattel Children’s Hospital, the Stewart and Lynda Resnick Neuropsychiatric Hospital at UCLA, UCLA Santa Monica Medical Center and UCLA West Valley Medical Center. We enhance access by providing care at numerous affiliate sites and via community-based programs.

The Nestlé Nutrition logo is displayed in a white rounded rectangle. On the left is the Nestlé logo, which consists of a bird's nest with three birds. Below the nest is the word "Nestlé" in a bold, sans-serif font. To the right of the Nestlé logo is a vertical line, followed by the word "Nutrition" in a large, blue, sans-serif font.

We are Nestlé. The Good food, Good life company. We believe in the power of food to enhance lives.

Good food nourishes and delights the senses. It helps pets to thrive, children to grow healthily and parents to age gracefully. It helps all of us to live life to the fullest. Good food also respects our planet and protects resources for future generations.

But times are changing fast. And we know that what's good today won't be good enough tomorrow. Consider the challenge of satisfying the needs of 10 billion people by 2050 in a responsible and sustainable way. This will demand innovation and change.

At Nestlé, we're constantly pushing the boundaries of what's possible with food, drink and nutritional health solutions. That way we can enhance quality of life and contribute to a healthier future for all.

Today, our business has around 270,000 employees, more than 2,000 brands and a presence in 188 countries.
